

Dear friends of the House of Encouragement foundation

It is wonderful to look into sparkling children's eyes. The joy and genuine gratitude of the children at the center last September was unbelievable. For them it was a time of celebration as we distributed the used but very nice clothes collected by members of the Prisma Church in Switzerland. There were enough clothes to allow each child to take home several pieces. To select the right sizes for 70 children was quite a challenge. We experienced that even the smallest kids knew exactly what they liked. But many of them would just humbly accept what they were given and therefore we especially paid attention to a fair distribution.

On behalf of all our children, we sincerely thank the organisers and donors of this collection in Switzerland.

„I have never seen such beautiful jeans - and now they are mine!“

The creativity of the poor people in building their shacks is without limits, even if in this case probably not quite legal. You really need a good navigation system not to lose your way.

Finding „Haus Wäckerling“ on the 6th of December will be easier. Here some information on the event:

With this event we would like to say thank you to the many people who have walked with us and supported the work of our foundation in various ways. Without this there would certainly not have been an Orphan Care Center operated successfully over 7 years. Also we would not have the courage to think about a Skill Center project for the youth in Soshanguve.

We only sell products from South Africa and have selected them specifically in view of supporting as many social projects in South Africa as possible. Please ask friends and relatives to join you to this event. Thanks for helping us to make known our work among the needy in the township Soshanguve so that we can broaden the basis for this work.

We are looking forward to your visit.
